1. About NewGold And NexMillionaires Tokens

In the fast-evolving world of cryptocurrencies, a new player is emerging, and it's promising early investors a golden opportunity. NewGold and NexM tokens, created on the Binance Smart Chain Network (Bep20) and Solana, are set to revolutionize the market with good return on investment. These tokens are gearing up to become one of the most expensive cryptocurrencies globally. What makes this cryptocurrency different from all others is that only 10,000 coins were created to be in existence, unlike other coins founders who created theirs in millions, billions and trillions. NewGold Technologies Team is creating a system to make it very scarce, valuable and to automatically become very expensive. Gold and Diamond are expensive because they are limited in supply. NewGold Team are using the strategy of RARITY. The price of 1 token has the potential to rise to \$1000 USD to \$100,000 USD in the nearest future.

2. OUR UTILITIES

NewGold and NexMillionaires token will be used for transactional purposes, to serve as a payment gateway in our ecosystems. This would cause a daily massive usage, attracts many investors and help the price to rise.

3.ECOSYSTEMS

NewGold Social Media App:

A video social media app promoting the rich cultural heritage of all tribes on earth, with 8000 languages in 200 countries. Newgold And NexM coin will serve as a payment gateways in this app.

01

NewGold Store:

Our e-commerce platform where people can buy goods and services with our tokens; NewG BSC, New Gsolana, NexM BSC, and NexMs Solana. These tokens will be used daily, generating significant user and transaction volume. In the coming weeks, hundreds of merchants are expected to sign up. You too can become a seller.

02

NewGold Exchange:

This will work like Binance for the trading of cryptos and it will help to promote our tokens.

5.ROADMAP

This is an updated ROAD-MAP after the successful launch of our four 4 tokens

Social Media Building: From Nov 2023 to date (2024)

Presale: From January 2023 to April 2023 for the four 4 tokens. Though each of the tokens had its own specific presale dates.

Launch At Decentralized Exchanges (DEX):These have been done. From January to April 2024.

Coin Market Cap Listing: Our three 3 tokens have been listed at coin market cap within January to April 2024

Marketing: We are starting an aggressive marketing from MAY 2024 till MAY 2025. We expect many investors to join.

Launch At Centralized Exchanges (CEX):These will take place in the month of MAY/JUNE 2024. We expect many investors to join when that is done.

PRICES: We expect the prices of each token to hit \$1000 in the coming months. NewGold had hit \$800 and \$700 on two occasions. Our tokens will be scarce, valuable and expensive.

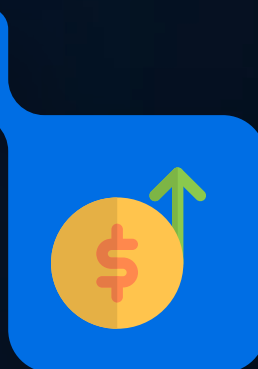

6.Aims and Objectives

Empower Financial Freedom:

Our mission is to empower individuals with the tools and opportunities to achieve financial freedom. We believe that everyone should have access to fair and inclusive financial services, irrespective of their background or location.

Financing:

We aim to revolutionize the age-old standards of conventional financing by leveraging cutting-edge technology and innovative financial solutions. Through our platform, we seek to challenge traditional norms and provide a more efficient and user-centric approach to borrowing, lending, and earning.

Drive Sustainable Growth

We strive for sustainable growth and long-term value creation.

To make our tokens the most expensive cryptocurrency in the world.

7. MARKETING APPROACH

We employ a multi-channel approach, leveraging social media, partnerships, and targeted campaigns to reach potential users and investors globally. By showcasing the unique benefits and features of our tokens, we aim to attract a diverse user base and foster widespread adoption. Our marketing efforts are backed by a dedicated team focused on building strategic partnerships, educating the community, and creating engaging content to ensure the success of our token in the competitive De-Fi landscape.

8. Governance

We believe in the power of community participation and democratic decision-making. We have implemented a robust governance framework that empowers token holders to actively shape the future of our protocol. Through voting mechanisms, users can propose and vote on key decisions, such as protocol upgrades, fee structures, and partnerships. This inclusive approach ensures that the community has a direct say in the direction and evolution of our tokens, fostering a sense of ownership and empowerment among our users.
